

Product Overview

The TR907 is a new concept in robust hand-held RFID readers. However, it is much more than a simple tablet reader. The TR907 combines the best of leading edge tablet design with the highest performing RFID reader functions available, and all in one small package.

Features

- Quad core 1.2 GHz CPU and Android 4.4 operation
- IP67
- Drop resistant to 1.2 meters
- WiFi and Barcode capable
- 4G
- Bluetooth
- 600 hours of standby battery
- Supports differential data or common GPS
- Charging kit included

Typical Applications

- Warehousing & logistical systems
- Logistics
- Security gates
- Medical

Product specifications

Model Number	TR907
RFID Frequency range (MHz)	902-928
Protocol	18000-6C, G2
Range	6 meters
Operating system	CPU MSM8916, A53, 4 core CPU, 1.2GHz
RAM	2G
Flash	16G
RS232	Serial Port
Bluetooth	4.0
GSM	900/1800/1900
Barcode Scanning	Motorola 655
WiFi	802.11 b,g,n

Physical specifications

Battery	7,200 mAh Li
Length x Width x Height (mm)	209X139X19 mm
Antenna weight	590 g, 1.3 lbs
Operating Temperature	-20 to +50 C
Humidity	To 95%

About Thinkify

Thinkify is a privately-held RFID company in Silicon Valley enabling common objects, devices and whole environments to become aware.

Thinkify – Making things think.™
